DETAILED ACTION

Response to Amendment

Examiner acknowledges response by applicant's representative received 7/30/08.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Hartung on 8/12/08.

The application has been amended as follows:

- Please cancel claims 1, 2, 5-6, 9, 16 & 20

Allowable Subject Matter

Claims 10-15 are allowed.

The following is an examiner's statement of reasons for allowance: Patentability has been found because the prior art fails to suggest or show the combination as set forth in the independent claims 10 & 15 including the method outlines for effecting an economic outcome utilizing specifically a rotatable wheel with 49 or 50 selectable regions with corresponding consistent profit(s). This requirement is not seen or fairly suggested by the prior art of record.

Prior teachings fail to anticipate or render obvious applicant's invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

Response to Arguments

Applicant's arguments filed 7/30/08 have been fully considered and are persuasive. Claims 1, 2, 5-6, 9, 16 & 20 have been cancelled. Claims 10-15 are allowed.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure and are cited to show the state of art with respect to features of the claimed invention.
